ARTHUR BRETT
FINE TRADITIONAL ENGLISH FURNITURE

Invest in the trend of design excellence with Arthur Brett

The acclaimed fine English furniture maker Arthur Brett crafts furniture for the most discerning of customers. From corporate projects and five star hotels to multiple private commissions, you can rest assured that with Arthur Brett you will receive the highest levels of craftsmanship and design expertise.

Recently, Arthur Brett has noticed an increasing

trend in the larger pieces of bespoke furniture. This is down to the fact that, even in difficult economic times, their experienced customers recognise the importance of investing in a piece of exquisite furniture that will last them forever. The striking desk pictured to the right is based on a Gillows design. The twin-pedestal desk in mahogany is supported by finely reeded columns on brass castors. The inset leather-writing surface is hand-coloured and surrounded by a decorative handmade brass gallery. It is 84cm height x 160cm width x 91cm depth.

Breakfront bookcases are also proving to be in high demand. The example pictured to the left is an extremely fine mahogany carved breakfront bookcase from a design attributed to Thomas Chippendale. This piece shows superb quality craftsmanship in many unusual features, such as finely pierced and fretted hexagon galleries around the top and finely applied carvings to all three doors. Size 250cm height x 201cm width x 63cm depth. To view Arthur Brett's full stunning range, please visit www.arthurbrett.com
