AIDS Orphans Rising Dec 23 2019 Every 15 seconds, a Child-Headed Household is Formed In the developing world, the death of parents from AIDS leaves behind little children, often four or five of them, who desperately want to stay together as a family—a Child-Headed Household. Imagine watching your mother and father slowly die before your eyes, leaving you to bury them and then to raise and care for your younger brothers and sisters. AIDS Orphans Rising takes you through the daily lives of these children and answers key questions, such as: Where do they live? How do they survive? What can I do to help? There are millions of AIDS orphans! Left alone, they will be uneducated, disenfranchised, and unwanted: ripe candidates for radicalization and exploitation by dictators and terrorists. If good people like yourself do not reach out to these children so they can get love, an education and set up in some profitable enterprise, civilization will deteriorate to a point that you will not even recognize it. Each chapter provides real solutions and actions that you can take now to help these children not only survive, but succeed. "The first edition of AIDS Orphans Rising was concerned with the invisible (and exploding) crisis of child-headed households in Africa. It was originally intended to serve as a resource guidebook for concerned teachers, researchers, nonprofit organizations, and policymakers. A funny thing happened; other people began reading the book, too! Sister Mary Beth has many beautiful stories of generous strangers, young and old, who have approached her to offer help. As a result, the perspective of this second edition has been reframed to inform concerned citizens everywhere." -- Connie Mariano, MD, FACP, author of The White House Doctor 100% of all profits from this book will go to help the Child-Headed Households For more info: www.AIDSOrphansRising.org Published by Loving Healing Press www.LovingHealing.com

How To Do Everything Jan 22 2020 It may not be great literature — but at least it's handy. From the mastermind of the hugely successful *The Red Green Show* comes a book that is going to change your life, or at least make you laugh — a lot — whenever you pick it up. And people are going to be picking it up for many years to come, because — like the long-rerunning TV shows — there's not a topical gag in the book anywhere, so it's going to be funny for the foreseeable future. And as its title suggests, this is also a terribly useful book. Among its very many gems of advice, it shows how to cook with acetylene, take revenge on a lawn mower, measure your hat size with a two-by-four, reduce your carbon footprint (it involves moving into a fruit tree located next to a liquor store) and make your own alternative fuel (which involves an empty propane tank and a full septic one).
