Strong on activities, this series will involve learners in the science process. The material is learner-friendly, written in accessible language and designed to use the resources that are easily available to learners. 'It's a really great book: friendly, comprehensive, complete and up-to-date. It is an explanatory guide to help you judge and choose the contraception to use. I recommend the book highly.' Dr Cindy Pan, general practitioner, media broadcaster and author of Pandora's Box. Choosing a method of contraception isn't simply about preventing pregnancy. It's also about making the best choice for your future, your lifestyle, your health and your peace of mind. This updated edition of Contraception-Healthy Choices provides both women and men with information to help make that choice. Forms of contraception covered include condoms (male and female), progestogen-only injections, implants, diaphragms, cervical caps, intrauterine devices (IUDs), natural family planning, traditional methods and sterilisation. The book also includes an update on the contraceptive pill, a new chapter on the increasingly popular vaginal ring, and new information on emergency contraception. There is information on how pregnancy happens, reducing the incidence of sexually transmissible infections and abortion. Written in an easy-to-read Q&A format and illustrated throughout, Contraception-Healthy Choices is a practical and contemporary guide for people who want to make an contraception they use. Cultivate a love for science by providing standards-based practice that captures children's attention. Spectrum Science for grade 7 provides interesting informational text and fascinating facts about homeostasis, migration, cloning, and acid rain. --When children develop a solid understanding of science, they're preparing for success. Spectrum Science for grades 3-8 improves scientific literacy and inquiry skills through an exciting exploration of natural, earth, life, and applied sciences. With the help of this best-selling series, your young scientist can discover and appreciate the extraordinary world that surrounds them! Science Matters is a programme for the Senior Phase of Curriculum 2005. This series enables educators to implement

the Natural Sciences Learning Area in a challenging and learner-centred manner. There is a Learner's Book and a Teacher's Guide for each grade. The Grade 7 Learner's Book: • is learner-centred and activity-based • focuses on the development of skills • encourages learners to think scientifically • guides learners to produce a record of their work • can be successful with limited resources • provides opportunities for consolidation after each module The Grade 7 Teacher's Guide • introduces educators to Curriculum 2005 and its terminology, materials and needs • helps educators to creatively develop skills through activities, including extension activities and assessment opportunities • includes photocopiable resources and worksheets and answers to questions in the Learner's Book • supports the teacher with background information • guides the educator in implementing continuous assessment
