"This new edition of Yasmin Khan's reappraisal of the tumultuous India-Pakistan Partition features an introduction reflecting on the latest research and on ways in which commemoration of the Partition has changed, and considers the Partition in light of the current refugee crisis. Reviews of the first edition: 'A riveting book on this terrible story'--The Economist; 'Unsparring. Provocative and painful'--The Times (London); 'Many histories of Partition focus solely on the elite policy makers. Yasmin Khan's empathetic account gives a great insight into the hopes, dreams, and fears of the millions affected by it'--Owen Bennett Jones, BBC"--Provided by publisher. Pakistan's transformation from supposed model of Muslim enlightenment to a state now threatened by an Islamist takeover has been remarkable. Many account for the change by pointing to Pakistan's controversial partnership with the United States since 9/11; others see it as a consequence of Pakistan's long history of authoritarian rule, which has marginalized liberal opinion and allowed the rise of a religious right. Farzana Shaikh argues the country's decline is rooted primarily in uncertainty about the meaning of Pakistan and the significance of 'being Pakistani'. This has pre-empted a consensus on the role of Islam in the public sphere and encouraged the spread of political Islam. It has also widened the gap between personal piety and public morality, corrupting the country's economic foundations and tearing apart its social fabric. More ominously still, it has given rise to a new and dangerous symbiosis between the country's powerful armed forces and Muslim extremists. Shaikh demonstrates how the ideology that constrained Indo-Muslim politics in the years leading to Partition in 1947 has left its mark, skillfully deploying insights from history to better understand Pakistan's troubled present. "This book critically analyses Partition experiences from East Bengal in 1947 and its prolonged aftermath leading to the creation of Bangladesh in 1971. It looks at how newly emerged borderlands at the time of Partition affected lives and triggered prolonged consequences for the people living in East

Bengal/Bangladesh. The author brings to the fore unheard voices and unexplored narratives, especially those relating the experience of different groups of Muslims in the midst of the falling apart of the unified Muslim identity. Drawing on in-depth ethnographic research and archival resources, the volume analyses various themes such as partition literature, local narratives of border-making, smuggling, border violence, refugees, identity conflicts, border crossing, and experiences of the Bihari Muslims and the Hindus of East Pakistan, among others. A unique study in border-making, this book will be an essential read for scholars and researchers of history, South Asian history, Partition studies, oral history, anthropology, political history, refugee studies, minority studies, political science and borderland studies"-- This is a biography of Mohammad Ali Jinnah and the story of the creation of Pakistan. At a time of much interest and concern about Pakistan in the international community, this volume provides a historical context which helps in an understanding of the present. It traces the development of the Muslim identity on the Indian subcontinent and follows Jinnah as he rode the wave of Muslim communalism to ultimate success in the demand for the partition of India and the creation of Pakistan at independence from British rule. Jinnah's successful espousal of the demand for Pakistan was a remarkable feat. In achieving this success, Jinnah traversed a long distance from the beliefs with which he entered public life. He started out a nationalist, as a protégé of senior Congress leaders like Dadabhai Naoroji. However, the introduction of separate electorates for Muslims after the Minto-Morley reforms in 1909 led him to change his position in order to appeal to his changed constituency. Even so, it was not until 1937 that he unabashedly played the religious card. He now began to see the Congress and the Hindus as his adversaries rather than the British. Through these twists and turns of posture, the one constant factor was his underlying ambition to remain in a position of leadership and eminence. This volume traces the zigzag course of Jinnah's political life and the establishment of Pakistan within the broader framework of the Indian freedom struggle. Indeed the main players in this struggle with three protagonists were the Indian National Congress and the British rulers. This work demonstrates how this bigger struggle opened the door for Muslim separatism led by Jinnah. It was through this opening, aided by British moves to use the Muslim League as a foil to the Congress, that Jinnah very astutely led his party to success in its demand for the creation of Pakistan. "Discusses the fundamental assumptions regarding the foundations of Pakistani nationalism as well as our current understanding of the roots of its postcolonial identity crisis"-- "During the last sixty years, historians have made efforts to explain the circumstances which led to the making of Pakistan. There is no dearth of those who have blamed the Indian National Congress and its leaders for its creation. The bueodon of evidence, however, suggests that it was Jinnah , President of All India Muslim League, who got direct and indirect support from the Viceroy when the war began, for achieving his aim of making a seperate homeland for the Muslims. In this volume the author has shown by documentary evidence as to how this was achieved by Jinnah. The documents collected from archival repositories in India and abroad shed considerable light on what transpired between Jinnah and Lord Linlithgow when the war started and how both conspired to prepare seperate scheme to counter the claim of the Congress which became the basis of Pakistan. The documents also reveal, how keen was the Viceroy that scheme should be unanimously approved by the Muslim League at its Lahore Session in March 1940. For cooperation with the British during the war, Jinnah was given the assurance that in any constitutional change in India during or after the war, the Muslims will have the right to decide their own destiny as per the Lahore or also known as the Pakistan Resolution. With an introduction and explanatory notes the author has done a commendable job of placing the documents for the scholars to pursue this subject in proper historical perspective. In recent years Pakistan has emerged as a strategic player on the world stage—both as a potential rogue state armed with nuclear weapons and as an American ally in the war against terrorism. But our understanding of this country is superficial. To probe beyond the headlines, Stephen Cohen, author of the prize-winning India: Emerging Power, offers a panoramic portrait of this complex country—from its origins as a homeland for Indian Muslims to a militarydominated state that has experienced uneven economic growth, political chaos, sectarian violence, and several nuclear crises with its much

larger neighbor, India. Pakistan's future is uncertain. Can it fulfill its promise of joining the community of nations as a moderate Islamic state, at peace with its neighbors, or could it dissolve completely into a failed state, spewing out terrorists and nuclear weapons in several directions? The Idea of Pakistan will be an essential tool for understanding this critically important country. This volume examines the social, and political and economic factors that have contributed to the rise of terrorism in Pakistan, employing an historical and critical terrorism studies perspective. In This Remarkable Study Based On More Than Two Years Of Ethnographic And Archival Research, Vazira Fazila-Yacoobali Zamindar Argues That The Combined Interventions Of The Two Postcolonial States Were Enormously Important In Shaping These Massive Displacements. She Examines The Long, Contentious, And Ambivalent Process Of Drawing Political Boundaries And Making Distinct Nation-States In The Midst Of This Historic Chaos. Zamindar Crosses Political And Conceptual Boundaries To Bring Together Oral Histories With North Indian Muslim Families Divided Between The Two Cities Of Delhi And Karachi With Extensive Archival Research In Previously Unexamined Urdu Newspapers And Government Records Of India And Pakistan. She Juxtaposes The Experiences Of Ordinary People Against The Bureaucratic Interventions Of Both Postcolonial States To Manage And Control Refugees And Administer Refugee Property. As A Result, She Reveals The Surprising History Of The Making Of The Western Indo-Pak Border, One Of The Most Highly Surveilled In The World, Which Came To Be Instituted In Response To This Refugee Crisis, In Order To Construct National Difference Where It Was The Most Blurred. In Particular, Zamindar Examines The Muslim Question At The Heart Of Partition. From The Margins And Silences Of National Histories, She Draws Out The Resistance, Bewilderment, And Marginalization Of North Indian Muslims As They Came To Be Pushed Out And Divided By Both Emergent Nation-States. It Is Here That Zamindar Asks Us To Stretch Our Understanding Of Partition Violence To Include This Long, And In Some Sense Ongoing, Bureaucratic Violence Of Postcolonial Nationhood, And To Place Partition At The Heart Of A Twentieth Century Of Border-Making And Nation-State Formation. A Product Of Outstanding Historical-Ethnographic Research, Vazira Fazila-Yacoobali Zamindar'S Book Tells Like No One Has Done Before The Maddeningly Tangled Story Of How, In The Years After The Partition Of 1947, India And Pakistan Actually Came To Separate Their Territories, Properties, And Peoples Into Two Sovereign States. Zamindar'S Ability To Weave Into A Single Narrative The National And The Local, The Administrative And The Personal, The Everyday And The Epochal, Is Truly Remarkable. This Is A Path Breaking Contribution To Modern South Asian Studies. Partha Chatterjee, Author Of The Politics Of The Governed: Reflections On Popular Politics In Most Of The World A Deeply Moving Account Of The Contingent Category Of The No-Questions-Asked Natural Citizen Within The Indian And Pakistani Nation-States, At Birth And In Their Long, Postnatal Condition. The Hurriedly Fixed National Boundaries Here Both Necessitate And Entice, Contain And Penalize Crossings. Zamindar Richly Documents How For Some Minority Groups Travel, Kinship Ties, And A National Longing Have To Be Continually Bared To Lay Claim To Citizenship Within A Multireligious Dispensation. An Unsettling Work That Breaks Through The Chalk Circles Circumscribing The Retellings Of Our Separate And National Pasts. Shahid Amin, Author Of Writing Alternative Histories: A View From India A Remarkable Exercise Of Ethno-History From Below. In Addition To Official Sources, Zamindar Has Collected Testimonies In Archives And Interviewed Survivors Of Partition To Offer An Original And Significant Chronicle Of The Nation-Making Process In Both India And Pakistan. Christophe Jaffrelot, Author Of The Hindu Nationalist Movement And Indian Politics, 1925 To The 1990S This Is A Significant And Path-Breaking Book And Is Likely To Become The Standard Study Of The Subject. It Will Be Cited Authoritatively Or Be Argued With For Some Time To Come. Aamir Mufti, Author Of Enlightenment In The Colony: The Jewish Question And The Crisis Of Postcolonial Culture A revised and updated edition of Willem van Schendel's state-of-the-art history, revealing the vibrant and colourful past of Bangladesh. The Partition Of The Indian Subcontinent In 1947 Left A Legacy Of Hostility And Bitterness That Has Bedevilled Relations Between India And Pakistan For Over Fifty-Five Years. The Two Countries, Both Nuclear Powers Now, Have Fought Three Wars Since Independence And Have Twice Come To The Brink Of War

In Recent Years. Each Of Their Attempts To Make Peace Has Failed, And Each Failure Has Added A New Layer Of Anger And Mistrust To Existing Animosities. So What Will It Take For India And Pakistan To Put The Long Shadows Of Partition Behind Them, Once And For All? Reviewing The Turbulent History Of Their Past Relationship, Radha Kumar Analyses The Chief Obstacles The Two Countries Face And Looks Afresh, In Particular, At The Kashmir Conflict, In The Light Of The New Opportunities And Challenges That The Twenty-First Century Presents. Kumar S Comparisons With Partition-Related Peace Processes In Bosnia, Ireland, Cyprus And Israel-Palestine Offer A Radically Different Perspective On The Prospects For Peace Between India And Pakistan, And Illuminate The Key Elements That Go Into A Successful Peace Process. Lucid, Incisive And Optimistic, Radha Kumar S Essay, Written At A Time When A New Peace Process Between India And Pakistan Has Begun To Unfold, Challenges Received Wisdom As It Argues Persuasively That The South Asian Neighbours Are Today Better Placed To Make Peace Than Ever Before. "Muhammad Aslam Malik, after scrutinizing primary and basic documents relating to the Pakistan Resolution, rejects all such criticism. Based on original sources, this work objectively analyses events leading to Independence. Although the theme is old, this book fills a long-felt need for a properly addressed and researched study based on new material. It is an excellent addition to modern South Asian history."--BOOK JACKET. The tensions inherent in the structure and ideology of colonial organization thus provide the backdrop for the study. Gilmartin's extensive use of private papers, biographies, and autobiographies of prominent as well as less prominent political leaders helps give this study a balanced viewpoint. He also draws on a range of popular and private Urdu materials that lend the book an authentic voice."--BOOK JACKET. The idea of Pakistan stands riddled with tensions. Initiated by a small group of select Urdu-speaking Muslims who envisioned a unified Islamic state, today Pakistan suffers the divisive forces of various separatist movements and religious fundamentalism. A small entrenched elite continue to dominate the country's corridors of power, and democratic forces and legal institutions remain weak. But despite these seemingly insurmountable problems, the Islamic Republic of Pakistan continues to endure. The Pakistan Paradox is the definitive history of democracy in Pakistan, and its survival despite ethnic strife, Islamism and deepseated elitism. This edition focuses on three kinds of tensions that are as old as Pakistan itself. The tension between the unitary definition of the nation inherited from Jinnah and centrifugal ethnic forces; between civilians and army officers who are not always in favour of or against democracy; and between the Islamists and those who define Islam only as a cultural identity marker. Study covers the period, 1919-1956. The history of Pakistan's nuclear program is the history of Pakistan. Fascinated with the new nuclear science, the young nation's leaders launched a nuclear energy program in 1956 and consciously interwove nuclear developments into the broader narrative of Pakistani nationalism. Then, impelled first by the 1965 and 1971 India-Pakistan Wars, and more urgently by India's first nuclear weapon test in 1974, Pakistani senior officials tapped into the country's pool of young nuclear scientists and engineers and molded them into a motivated cadre committed to building the 'ultimate weapon.' The tenacity of this group and the central place of its mission in Pakistan's national identity allowed the program to outlast the perennial political crises of the next 20 years, culminating in the test of a nuclear device in 1998. Written by a 30-year professional in the Pakistani Army who played a senior role formulating and advocating Pakistan's security policy on nuclear and conventional arms control, this book tells the compelling story of how and why Pakistan's government, scientists, and military, persevered in the face of a wide array of obstacles to acquire nuclear weapons. It lays out the conditions that sparked the shift from a peaceful quest to acquire nuclear energy into a full-fledged weapons program, details how the nuclear program was organized, reveals the role played by outside powers in nuclear decisions, and explains how Pakistani scientists overcome the many technical hurdles they encountered. Thanks to General Khan's unique insider perspective, it unveils and unravels the fascinating and turbulent interplay of personalities and organizations that took place and reveals how international opposition to the program only made it an even more significant issue of national resolve. Cooperation. In questioning the assumption, Ahsan seeks to establish that the north-west of the subcontinent, comprising the valley of the Indus and its major tributaries, has always been distinct from India. Drawing evidence from legend, folklore, poetry, ritual, and social norms, from ancient times to the modern age, *The Indus Saga* questions and rejects many of the widely-accepted myths of subcontinental history. The facts presented in this book highlight the dichotomy between the Indus region and India. They show the almost unbroken continuity of a distinct social and political order, bearing testimony to the primordial and restless impulse of the Indus region to be a distinct and independent nation-state. This book traces the economic history of the Muslims from the fall of the Mughal Empire to Independence. It shows how, with the coming of the British, a new economic structure emerged in the Indian subcontinent under which the Muslims lost not only their political power but also their economic standing, and then shows how fear of continued economic deprivation fueled the demand for Partition.
